

## ***Health Canada Information Link***

**July 5, 2010**

*The following information was provided by Health Canada and distributed by the Canadian Society of Customs Brokers (CSCB).*

At the CSCB Regional Conference in June, several questions were raised by members during a presentation by Health Canada.

These questions suggest that there is a need for additional information on importing Drugs and Natural Health Products. Health Canada has kindly recommended that CSCB members and importers have a look at information provided at the following link:

<http://www.hc-sc.gc.ca/dhp-mps/compli-conform/import-export/index-eng.php>

If you have any questions for Health Canada, they can be asked of your regular contact at Russell A. Farrow Limited, and we will attempt to obtain answers.
