NEW OFFICE OPENING IN KEY WESTERN BORDER PORT!

The Farrow Group announces the expansion of our U.S. field operations through the opening of a Russell A. Farrow (U.S.) Inc. customs brokerage office in Blaine, Washington. This expansion builds on the full customs brokerage services for export/import customers currently provided throughout the province of British Columbia by Russell A. Farrow Limited, and positions the company to better serve its customers in the Pacific Northwest.

Russell A. Farrow (U.S.) Inc, is a wholly owned subsidiary of The Farrow Group. Formed in 1994, Farrow (U.S.) offers international trade customers fast and efficient freight forwarding and customs clearance of surface, air and ocean consignments, regardless of carrier, mode of transport or U.S. Port of Entry. Farrow (U.S.) along with its parent, Russell A. Farrow Limited, and subsidiaries provides leading edge customs brokerage services along the entire U.S. - Canada border.

Scott Middlekauff has been named Blaine Branch Manager. Possessing twelve years of cross border experience, Middlekauff, a licensed customs broker, brings a diverse background to the company.

“Scott has been actively involved in sales and product development in Washington State, British Columbia and other Canadian provincial markets, and brings strong technical experience and industry knowledge to our organization. We are looking forward to Scott becoming a key member of our team” said Tom Kowalski, President of Russell A. Farrow (U.S.) Inc.

“Blaine is the next step in the development of our Northern Border network. Combined with our air and ocean customs brokerage and international freight forwarding services as well as our partnership along the U.S. - Mexican Border, our strategy of building a full service offering throughout the U.S. based on customer need and expectation continues. We look forward to opening additional operating branches during 2010 and beyond,” Kowalski went on to say.

Built on the foundation of service excellence, reliability, and innovation, The Farrow Group has been helping speed the movement of freight between Canada and the United States since 1911. The Farrow Group, the largest independent and privately owned customs broker in Canada with over 600 employees, has grown steadily over the years to become one of the foremost providers of customs brokerage, transportation logistics services and international trade software in North America.
