Information re Importation into Canada

January 21, 2010

The following was compiled by Russell A. Farrow Limited

Importers or those considering importing seafood into Canada should view the CFIA (Canadian Food Inspection Agency) Fish and Seafood import information website at:

<http://www.inspection.gc.ca/english/fssa/fispoi/import/importe.shtml>

Here, you will find the CFIA's standards for the quality, safety and identity of fish and seafood products, as well as information on their inspection procedures, relevant Acts and Regulations, codes of practice, and other related reference material.

The CFIA Guide to Importing Food Products Commercially can be found at:

<http://www.inspection.gc.ca/english/fssa/imp/guidele.shtml>

It is also recommended that you review the Good Importing Practices document found at:

<http://www.inspection.gc.ca/english/fssa/imp/goodbonne.shtml>

You can also review import requirements for specific products using the CFIA's Automated Import Reference System (AIRS) at:

<http://airs-sari.inspection.gc.ca/>

By following the appropriate prompts, you will be able to determine current requirements based on the type of product / size of shipment you intend to import.

Should you have any additional questions, you can contact one of the CFIA's Import Service Centres using the contact information found at:

<http://www.inspection.gc.ca/english/imp/importe.shtml>

Should you have additional questions after reviewing these pages, you can contact:
